Residential Retreat

2022 Webpage Program Description

Residential Program **\$2,195.00**5 Days + 6 Nights

Gain a greater appreciation for life. Research studies have revealed a consistent pattern of positive aftereffects in those who report a Near-Death Experience (NDE). Beneficial outcomes are also possible for those who have no had an NDE, but instead, learn about them. During this course, you will explore the nonphysical universe by visiting the same realms encountered by those who have experienced an NDE.

NDE Spectrum offers the opportunity for a wide spectrum of NDE experiences and a new profound understanding of the afterlife. More specifically this program covers:

- The different types of NDEs, elements of an NDE and the Grayson scale for measuring NDE validity.
- How to connect with your energy body and the role it plays in allowing you to experience the same nonphysical realms encountered by those who have had an actual NDE.
- An experiential exploration of the NDE realm along with the beneficial aftereffects that an actual NDE provides; Greater sense of oneness in life, less or no fear of dying, heightened intuition.

Learn various techniques to leave your physical body. Using a blend of Monroe Sound Science technology and specific meditation techniques, you will discover how to enter into very particular states of consciousness associated with Near-Death Experiences/Out-of-Body Experiences, come back safely, and return at will.

Release fear around dying. Reclaim the power you give away to the unknown. Our NDE Spectrum course goes beyond exploring an altered state of consciousness. Through your discovery of the NDE realm, you have the potential to experience after-effects that last throughout your life.

Embrace the fullness of what it means to be human. For the first time ever, this powerful and sacred experience is available to everyone. Experience the signature aspect of an NDE. Explore the tunnel of light and encounter angelic beings. Reunite with friends and relatives who have transitioned. Experience a life review to undergo healing and regeneration.
